**Emergency Management Performance Grant (EMPG)
Local Emergency Management Support (LEMS)**

**Program Guidance
and
Application Kit**

Foreword: Message from the Division and EM Directors

County, Tribal and Municipal Partners,

Enclosed please find guidance and the application kit for the 2019 Emergency Management Performance Grant (EMPG), Local Emergency Management Support (LEMS) program. The deadline for returning completed applications to your Colorado Division of Homeland Security and Emergency Management (DHSEM) Regional Field Manager (RFM) with signatures is **January 31st, 2019**

EMPG is the primary source of federal funding directed to state, local and tribal governments to support all-hazards emergency management programs through personnel, planning, training and exercises. Program objectives for each applicant jurisdiction include the capability to perform crisis and consequence management tasks as indicated in the Emergency Management Functions at the Type IV level for 24 to 72 hours. Nationally, approximately half of EMPG funding to states is passed through to local and tribal jurisdictions. EMPG funds retained at the state level are also used to support local and tribal programs through activities including state-sponsored training and conferences, maintenance of field offices and staff, provision of tools such as WebEOC, and staff that provide technical assistance focused on planning, resource management, alert and warning, response coordination, hazard mitigation, public education, community recovery, interoperable communications and exercises.

In 2019 each jurisdiction should plan to receive a contract for approximately the same amount as their 2018 contract award, barring any unforeseen changes in funding at the Federal level. In order to be eligible to receive reimbursement for the full award, each jurisdiction must perform the base program requirements and items in the work plan selected from Table 2. Requirements are listed on Table 1. OEM RFMs will meet with you during the 2019 application process and discuss your program for the 2019 grant year.

Please note that 75% of your total grant award is available for completing the base requirements, reference Table 1 or Base Program. The base allocation percentages are identified in the guidance for reference on how each requirement is valued.

During 2019, the program will select items for the work plan from Table 2 Elective Planning option. These projects must be completed or have measurable progress in order to receive reimbursement for the remaining award.

The state has an appeals process for jurisdictions who disagree with any final ruling of the EMPG Program Manager on work plan progress. The first level appeal is to the EM Director; the final appeal level is to the Division Director. The local agency administrator/lead and the Emergency Manager must participate in the appeals process.

We believe this funding formula will provide local governments the flexibility to focus on local priorities while meeting State and Federal grant requirements. In addition, this funding allocation model will enable Emergency Managers to better serve the citizens of Colorado through the development of critical capabilities. The RFMs will send a letter to each program which did not fully complete or demonstrate measurable progress on projects from their 2018 EMPG Work Plan. This letter will identify where the program could be at risk of losing funding in 2019.

Unexpended funds will be de-obligated 90 days after the contract period. The State may use these funds for special or alternative projects during the final nine months of the performance period. FEMA has informed States that federal guidance for the 2019 EMPG program, will continue to emphasize the "Whole Community" emergency management philosophy, encouraging state, local and tribal organizations to undertake activities that further support objectives for comprehensive planning, training, exercising, and assessment of hazards, risks and capabilities. The 2019 work plan template is based on the Emergency Management Function (EMF) format and is consistent with the 2018 program.

We value our strong relationships with local and tribal partners in Colorado and look forward to working collaboratively to strengthen program capabilities. If you have questions or concerns, please don't hesitate to contact us or members of the OEM staff involved in EMPG management, including Trevor Denney, EMPG Program Manager (Trevor.Denney@state.co.us) or your RFM.

Application Guidelines

In order to apply for FFY 2019 EMPG-LEMS funds, complete Parts I, II and III of the application kit and return with signatures by **January 31, 2019** to your **DHSEM RFM**.

If your mailing address has changed in the last year, or if you would like reimbursement checks sent to a different mailing address, a new W-9 form must be submitted with your application. The forms that make up the Application Kit are provided as separate, individual files.

Application Checklist:

- i. Part I, 2019 EMPG-LEMS Grant Activities/Work Plan Template
- ii. Part II, Jurisdiction Information and Signatures
- iii. Part III, Staffing Pattern and Funding Request
- iv. Current Position Descriptions Completed Federal Funding Accountability and Transparency Act (FFATA).

EMPG-LEMS Program Guidance

Statutory Requirement

According to the Colorado Disaster Emergency Act (Title 24, Article 33.5, Part 7 section 707), the Mayor, Chair of the Board of County Commissioners, or other principal Executive Officer of each county in the state or any city designated by the Governor to have an emergency management agency is required to; (1) notify the Colorado Division of Homeland Security and Emergency Management (DHSEM) of the manner in which the political subdivision is providing or securing disaster planning and emergency services, (2) prepare and maintain a current disaster emergency plan, (3) identify the person who heads the agency from which services are obtained, and (4) furnish additional information relating to program activities as requested by DHSEM.

To satisfy this statutory requirement, Counties and designated Municipalities shall complete Part II of the EMPG-LEMS Application Kit. Part II requires signature by the Mayor, Chairman of the Board of County Commissioners or other chief executive official as designated by the jurisdiction. Completion of Part II alone does not constitute a request for EMPG-LEMS funding support. Applicants for FFY 2019 EMPG-LEMS funds must complete Part I, III, Staffing Pattern and Funding request, in addition to Part II.

The Colorado Disaster Emergency Act, C.R.S 24-33.5-705(3), requires the Colorado Office of Emergency Management to take part in the development and revision of local and inter-jurisdictional disaster plans; consult with political subdivisions and disaster agencies regarding the status of their disaster plans and make field examinations.

Purpose of EMPG-LEMS Program

The purpose of the Emergency Management Performance Grant program is to assist in the development of comprehensive, risk-based, all-hazard emergency management programs at the State, local, and tribal government levels and to improve emergency preparedness through integrated planning, training and exercising while addressing prevention, protection, mitigation, response, and recovery capabilities. EMPG funds are authorized by Congress on an annual basis and passed to the States through the Federal Emergency Management Agency (FEMA). **These EMPG-LEMS funds are intended to reimburse programs for up to 50 percent of local/tribal costs for staff, travel, training, office maintenance, EOC enhancements and other eligible costs.** Common uses of the funds are to support activities in the areas of emergency management personnel, planning, training, exercises and public education. EMPG-LEMS funding may not be utilized for response operations

Delayed Nature of EMPG Funding

As a result of the federal budget cycle, the annual allocation of funds to States does not typically occur until the third quarter of the federal fiscal year which begins on October 1 of each year (well after local government budgets have been approved). Most local partners have become

accustomed to this staggered schedule and, like the state, have adapted by using general funds to cover the first half of the federal fiscal year until federal funds are available to cover costs over the final two quarters. While a reduction in future allocations cannot be ruled out, EMPG has strong, broad-based support in Washington and nationwide and will continue to be the primary program for sustaining local, tribal and state emergency management programs in the foreseeable future. This grant is made available to local programs on a calendar year basis. The grant period is January 1 through December 31, 2019.

2019 Program Funding Award and Reimbursement

Subrecipients for 2019 EMPG-LEMS grant awards may receive funding based upon their 2018 allocation. Reimbursement will be via a two tier funding model. Each Subrecipient will receive reimbursement for up to 75% of their annual award for completion of the minimum base program requirements and state supported initiatives. The other 25% will be reimbursed based on progress towards completion of work plan products submitted to and approved by RFMs assigned to the nine All Hazard Regions from the Colorado Division of Homeland Security and Emergency Management, Office of Emergency Management.

- Base funding allocation (75%)

To be eligible to receive the base portion of the grant, each Subrecipient must complete the minimum program requirements as included in the Planned Activities template (work plan) located with supplemental documents of this guidance. Additionally, each jurisdiction shall submit the job description of the individual(s) responsible for emergency management program development and maintenance. This document shall indicate that it is valid January 1, 2019 through December 31, 2019 and specify responsibility for maintenance of the emergency management program.

- Performance allocation reimbursement (25%)

The remaining 25% of a sub-recipient's reimbursement will be dependent on submission and approval of products that meet recognized standards, criteria and guidance. Table 2, identifies the products and applicable evaluation criteria. Emergency Managers may pick from one or a selection of the elective items that best meets the needs of their planning efforts in support of their program. EMPG Reimbursement cannot exceed 100% of the contract award amount. As part of the application process, the applicant will pick the product (s) it wants to work on from Table 2. Program priorities not included in Table 2 may be negotiated with the RFM for work plan approval individually or by Region. The base funding, plus the elective product/activity selected from Table 2, will equate to 100% contract funding. The RFM will provide technical assistance and guidance regarding all work plan products as requested.

References for EMPG Program Administration

The Emergency Management Standard published by the Emergency Management Accreditation Program (EMAP EM-4-2016) establishes standards and performance criteria for Emergency Management programs. The Emergency Management Standard defines an Emergency Management Program as a system that “encompasses all organizations, agencies, departments, and individuals having responsibilities” in management and coordination, prevention, mitigation, preparedness, response and recovery activities for the jurisdiction.

Emergency Management Functions (EMFs)

Planned activities identified in local and tribal work plans should be based on the 15 **Emergency Management Functions (EMFs)** identified in this guidance. The 15 EMFs provide program elements or activities for strategic planning and for measuring local/tribal emergency management program progress and effectiveness. The EMF standards have been traditionally utilized by the State, are derived from FEMA guidance documents and the Emergency Management Standard as defined through the **Emergency Management Accreditation Program (EMAP)**, and are consistent with National Fire Protection Association (NFPA) 1600 standards. The Colorado Division of Homeland Security and Emergency Management utilizes these EMF standards as categories for its annual EMPG state work plan and quarterly state work plan reporting to FEMA.

Program Capability	Emergency Management Function (EMF)	Key Activities
Program Management	EMF-1: Finance & Administration	Budget preparation, grant administration, LEMS application, expense tracking, quarterly reimbursement requests, quarterly performance reports (work plan), equipment inventory and monitoring
	EMF-2: Laws & Authorities	Ordinances, resolutions, emergency declarations, EMAP accreditation, compliance with laws and regulations
Hazard Mitigation	EMF-3: Risk Assessment	Development/upgrade of local/tribal THIRA (Threat and Hazard Risk Identification and Assessment), development of corresponding risk management strategies
	EMF-4: Hazard Mitigation Plans & Projects	Development of local/tribal hazard mitigation plans, implementation of hazard mitigation projects, coordination of Environmental and Historic Preservation (EHP) reviews
Plans	EMF-5: Emergency Operations Plans	Development/upgrades/revisions of local/tribal emergency operations plans (EOPs) in accordance with CPG-101, Version 2.0, fostering partnerships with EOP stakeholder agencies and organizations
	EMF-6: Recovery Plans	Development/upgrades/revisions of local/tribal recovery plans, fostering partnerships with recovery stakeholder agencies and organizations
Preparedness	EMF -7: Training	NIMS training delivery, professional development for staff, development of Training & Exercise Plans (TEPs)
	EMF-8: Exercises	Participation in exercises as “Sponsoring” and/or “Participating” agencies
Operations	EMF-9: Incident Management	EOC management, Continuity of Operations (COOP), multi-agency coordination, support of incident command operations

	EMF-10: Communications	Activities supporting interoperability, including cooperative planning, equipment tests, drills, radio checks, purchases, etc.
	EMF-11: Operations Procedures	Development/maintenance of systems (Web EOC), processes (resource order process), capabilities (EOC management training), and Plans (COOP) to support incident operations.
	EMF-12: Mutual Aid	Maintenance of local, interagency, regional and statewide intergovernmental agreements
Logistics	EMF-13: Resource Management	Development/maintenance of local resource mobilization plans and processes, including database management systems, inventory, financial controls and relevant forms.
	EMF-14: Facilities Management	Monitoring & maintenance of EOC/Alternate EOC facilities and equipment.
Public Information	EMF-15: Crisis Communication, Public Information and Education	Development/maintenance of Joint Information System (JIS) protocols and procedures, web page management, and procedures for utilizing social media. Development and maintenance of local Alert and Warning Plans and procedures.

Supporting National Preparedness Initiatives

In addition to enhancing comprehensive all-hazards emergency management capabilities, EMPG funds provide an opportunity to support state and national homeland security strategies and strengthen national preparedness. **Presidential Policy Directive 8: National Preparedness (PPD-8)**, signed on March 30, 2011, describes the Nation’s approach and preparation efforts for the threats and hazards that pose the greatest risk to the security of the United States.

The EMPG Program plays an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of “core capabilities”. The core capabilities represent an evolution from the Target Capabilities List (TCL). EMPG guidance requires States and local/tribal partners to tie EMPG activities more closely to enhancing core capabilities. DHSEM has determined that, for FFY 2019, LEMS participants will fulfill the obligation to support core capabilities by meeting the **FFY 2019 Program Requirements** below. Files and information on PPD-8 and core capabilities can be found at <http://www.fema.gov/ppd8>.

2019 Base Program Requirements

Jurisdictions receiving EMPG-LEMS program funds are required to work toward completion in current or multiyear program cycle as supported by RFMs of all tasks and planned activities identified, submitted and approved in their annual work plan. Applicants for 2019 EMPG-LEMS support must conform to the program requirements as follows:

1. Development and maintenance of a formally adopted, up-to-date emergency operations plan, and local alert and warning plan (*Federal and State requirement, base requirement equates to 30% of the 75% base allocation*)

CRS 24-33.5, SS 707 requires all Colorado Counties to have a current Emergency Operations Plan which serves the entire County. All EMPG Program recipients /Subrecipients must implement, maintain, and revise as necessary, jurisdiction-wide all-hazards Emergency Operations Plans that are consistent with CPG-101 v.2 (November 2010), which serves as the foundation for State, Local and Tribal emergency planning. CPG-101 v.2 can be found at:

http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf Subrecipients are required to submit new and revised EOP elements to their RFMs in order to be eligible for FFY 2019 EMPG Program funds (FEMA Required). In order to fulfill this statutory requirement, for program year 2019, all EMPG funded jurisdictions will complete the Colorado EOP Review Tool no later than June 30, 2019. Measures contained in the review tool are derived from Federal guidance to include: The National Preparedness Goal as amended and revised; Core Capabilities as amended and revised; and the Federal Emergency Management Agency CPG-101 and CPG-201 as amended and revised. EMPG funded jurisdictions will demonstrate satisfactory submission of the measures by noting the page and section in their plan where each measure is contained with the provided review tool.

2. Development of critical components in support of resource management processes and planning. (*State required, base requirement equates to 15% of the 75% base allocation*)

In order to meet the requirements of the Colorado Disaster Emergency Act CRS 24-33.5, SS 707, a Colorado priority for the 2019 EMPG program is the development and implementation of identified critical resource management components aimed at aiding in response and development of a comprehensive resource mobilization plan(s). These systems will include a management plan for jurisdictionally-owned resources, mutual aid

resources, private and public sector resources, non-governmental and volunteer resources, and the policies and procedures for each. For the 2019 grant year, Colorado DHSEM requires local and tribal jurisdictions to focus on the following specific measurable outcomes:

- i. Review and maintenance of all resource data in the WebEOC Resource Management System for the local jurisdiction (task can be shared with local agency resource managers) and participate in Just in Time Statusing requests in state wide mobilization system.
 - ii. An annual meeting with the jurisdiction's mutual aid partners to review and validate mutual aid terms and agreements, and build understandings around mobilization(s).
 - iii. Identification of Authorization Signatory's for resources acquisition, establish tracking method (s) for supporting resources outside of traditional Computer Aided Dispatching (CAD).
- 3. Conduct at least two local “whole community” stakeholder/partner meetings with the agencies who represent the capabilities in the jurisdiction.** These are the agencies who are required to establish and implement processes and procedures for consequence management during disaster emergencies. Whole Community stakeholder/partners include: law enforcement, fire, EMS, public works, health and medical, behavioral health, mass care (human services, Red Cross, VOAD), school districts, public utilities, public information, the Access and Functional Needs (AFN) community and other relevant stakeholders. These agencies and entities constitute your partners during an EOC/Incident Management activation and any significant incident response. Working with RFMs in preparation of an agenda for these meetings is encouraged. The agenda should address emergency management planning, operations, processes and procedures. Maintain a sign in sheet, record of discussion items and issues. *(State required, base requirement equates to 5% of the 75% base allocation)*
- 4. Development and Maintenance of a Three-Year Training and Exercise Plan (TEP).** All Subrecipients are required to develop a Three Year TEP that incorporates linkages to the core capabilities and update it annually. A TEP workshop conducted at the regional level, where the Subrecipient provides its jurisdictional needs, meets this requirement. Information related to TEPs can be found on the HSEEP website at https://www.fema.gov/media-library-data/20130726-1914-25045-8890/hseep_apr13_.pdf *(FEMA required, base requirement equates to 5% of the 75% base allocation).*

5. All EMPG program funded personnel (State/Tribal/Local) must participate in at least three exercises in a 12-month period.

1) Subrecipients must perform a resource management drill in council with Regional Field Manager;

- i. Sponsor at least one additional exercise (tabletop, functional or full scale exercise which demonstrates the emergency management functions of situation assessment, resource management, alert and warning and public information within the local EOC or equivalent support location).
- ii. Participate in another jurisdiction's exercise in an Emergency Management capacity.
- iii. Conduct a resource management drill with EOC personnel, local resource management personnel from jurisdictional agencies, and your DHSEM RFM. The drill will document the capability to use the resource management process and tools.

2) EMPG jurisdictions **must submit** an After Action Review or Corrective Action Plan to their RFM for the exercise they sponsor. Real events and actual emergencies are allowable substitutes for exercise participation and require an AAR (*FEMA required, base requirement 15% of the 75% base allocations*)

6. Targeted Training of EMPG-Funded Personnel. All EMPG program funded personnel (State/Local/Tribal) must complete the following NIMS training courses and record proof of completion by providing certificate copies to the RFM: IS 100c; IS 200b; IS 700b; and IS 800c; FEMA Professional Development Series: IS 120.c; IS 230.d; IS 235.c; IS 240.b; IS 241.b; IS 242.b; and IS 244.b. Submission of a list of EMPG program funded personnel along with the training completed **will** be included in quarterly performance reports. EM Staff personnel with no role in program activations only need IS 100, 200, 700 and 800. (*FEMA required, base requirement 5% of the 75% base allocation*).

7. Timely Submission of Application, Quarterly Reports and Quarterly Requests for Reimbursement. All EMPG-LEMS applicants are responsible for submitting a complete application package and four quarterly progress reports and requests for reimbursement in a timely manner. A complete application package includes:

- i. Part I, FFY 2019 EMPG-LEMS Grant Activities/Work Plan Template
- ii. Part II, Jurisdiction Information and Signatures
- iii. Part III, Staffing Pattern and Funding Request
- iv. Current position description for all personnel that are listed on the Staffing Pattern. This document must include the emergency manager and related responsibilities for

- each employee claimed under EMPG (if there are no changes from the previous year, then there is no need to submit a copy of an employee's job description).
- v. Completed Federal Funding Accountability and Transparency Act (FFATA) form (required for all federal grant programs except American Recovery and Reinvestment Act grants). (*FEMA required, base allocation*)
- vi. Pre-application Checklist

Program and Financial Monitoring

As per Federal Grant guidance, DHSEM has implemented a formal monitoring process that will be conducted with each Subrecipient at least every two years. The schedule and monitoring visit process will be coordinated through the Subrecipient monitoring team and RFM. The monitoring program is intended to ensure that all Subrecipients are performing and administering the EMPG Grant in compliance with all of the required federal and DHSEM grant terms and conditions, and have the proper financial and programmatic documentation in the grant files ready for future Federal audits.

Given recent requests to the state for substantiating documentation of match funding, applicants can expect greater scrutiny of grant match documentation during monitoring visits.

Quarterly Reports and Reimbursement Requests

Quarterly Part I Progress Reports must be submitted to your DHSEM RFM **fifteen** days following the end of each quarter. The timely submission of quarterly progress reports and products via EMGrants Pro <https://co.emgrants.com> is a requirement for approval of quarterly requests for reimbursement. If an extension is needed, a written request to your DHSEM RFM must be made before the deadline. Regional Managers will then have 10 days to report the regional information to DHSEM for the state report.

Quarterly Reports should identify the status of each activity planned for that quarter: Completed/accomplished, in-process, postponed/canceled, or not completed or not accomplished. Please indicate a reason when activities are postponed, canceled or not completed. For reporting purposes, please include dates and identify scenario and type of exercises conducted. Also identify specific plans/annexes or updates to EOPs or other plans.

Quarterly Requests for Reimbursement and financial reports are due on the date specified in the schedule of this guidance. For the EMPG/LEMS grant, the reimbursement request is made via EMGrants Pro.

Electronic/Digital Signatures

Electronic/digital signatures will be accepted on the 2019 EMPG application.

Signatures should be readable by the Adobe Reader program and must be created by the signer and show a verified/unchanged status when the form arrives via email to the DHSEM RFM. The Chief Financial Officer (CFO) is still the primary person expected to affix their signature to the quarterly reimbursement request/financial report, as they are certifying that the expenses shown on the report are eligible for the EMPG program and the DHSEM LEMS award under the EMPG program and match the jurisdiction's General Ledger reports for the period. Any variance from the general ledger report should be noted and explained either on the report itself or in documentation maintained by the sub-recipient. The CFO or the Governing Body (Board of County Commissioners), City Council, Tribal Council may delegate the reimbursement signing authority to the authorized designee if they so choose. This delegation must be in writing and submitted to the OEM DHSEM by email, or regular mail before an alternate signature can be accepted.

2019 Reporting Schedule

Local Jurisdiction Reporting Schedule			
Quarter	Reporting Period	Report Due Date	Claim Due Date
1	01/01/19 – 03/31/19	04/10/19	4/30/19
2	04/01/19 – 06/30/19	07/10/19	7/31/19
3	07/01/19 – 09/30/19	10/10/19	10/31/19
4	10/01/19 – 12/31/19	1/10/20	1/31/20
